Awards Handbook

Rationale

Mansfield State High School recognises outstanding student achievement through the presentation of individual and team awards at annual year level ceremonies. This handbook details the types of awards, the award criteria, the nomination process and how a decision is reached and communicated. The intent of this handbook is to provide clarity on the award process and student eligibility.

This handbook covers awards where Mansfield State High School holds the responsibility to decide who will receive the award; and who will present the award.

This handbook does not address awards or achievements that a student may achieve independent of the school or where the decision on who receives the awards rests with an outside agency. (eg; AMEB Music exams, sporting achievements outside of the Queensland Schools Secondary Sports Association).

Academic Excellence and Academic Achievement

In 2025 there is a change to the process of how academic awards are calculated. Calculations will use the student's Level of Achievement (LoA) – commonly referred to as grades. These are the A-E ratings which are used to indicate achievement for each subject on school reports, with A being the highest and E being the lowest. A rating of N indicates the student is Not Rated for that subject. The LoA will be converted to a number to calculate the Grade Point Average (GPA) of the student for the reporting period. In this calculation, A=5, B=4, C=3, D=2 and E=1 for each subject, with the GPA expressed as a number between 0 and 5, to two decimal places. Vocational Education and Training competencies and non-curriculum classes including instrumental music are not used in the calculation. The calculations include all school reports specified in the reporting period. Reporting periods vary for each year level as some final year results are not available in time to be included.

Recognition of achievements outside of school sport

Sports which are part of the Queensland Representative School Sport program are recognised through our school awards. We acknowledge that many students achieve state, national and international success in their chosen sport outside of school sports.

Commencing this year, students who have achieved success at a state, national or international level in sports other than school sports may self-nominate to receive recognition of their achievement in a new publication; 2025 Achievements in Sport. This document will be published on the school website and will acknowledge the highest individual achievement of these students. Please follow the following steps to self-nominate.

1. Confirm that the achievement is in a non-school sport – all Queensland Representative School Sport will be acknowledged in Mansfield State High School's official awards schedule.
2. Complete the online nomination form indicating the highest single achievement (state level or above) during the **eligibility period of Term 4, 2024 through to end of Term 3, 2025** (single, highest achievement only).
3. Provide proof of the achievement eg; a copy of official paperwork that acknowledges team selection, individual medal or published result. Email to info@mansfieldshs.eq.edu.au including the student's name so that the evidence can be matched to the details submitted via the online form. Unsubstantiated achievements cannot be acknowledged.
4. **Complete the nomination process by Friday 17 October 2025** to allow time for the information to be verified and included for publication. Late submissions cannot be accepted.

Note: The minimum achievement level for inclusion is at State level. Achievements in local or regional competitions cannot be acknowledged in this format.

Major Awards

Major award recipients must meet all bullet point criteria stated in this section to be considered for a major award. Unlike the Bronze to Platinum awards where the criteria may be presented as one achievement **or** an alternative achievement, major awards require all criteria to be met as these achievements are the pinnacle of awards program.

The eligibility period for major awards includes the end of 2024 in recognition that some key extracurricular events are held at the end of Term 4. **The eligibility period for 2025 is the beginning of Term 4, 2024 through to the end of Term 3, 2025.**
