Responsible Use Agreement Form 2024

The goal is to ensure the safe and responsible use of services available to students through the provision of clear rules and guidelines. The student must understand that the right to use a device at school is conditional on the student abiding by these rules and guidelines. The device is primarily provided for an educational purpose. It is not provided for a recreational purpose. Failure to use the device in a responsible way may result in the student losing the device or losing the right to use the school network. When at school the student's use of their device, in or out of class, is determined by a teacher. At all times the student is obliged to follow a teacher's instructions regarding the student's use of his or her device. These rules and guidelines are set forth in both the [One-to-One iPad Program Guide for Technology Integrated Curriculum \(TIC\)](#) (see pages 9-10) and in the Mansfield State High School Student Handbook. Responsible use requires that the student follows the rules and guidelines for the use of the device.

Breach of responsible use

Students will be held responsible for any actions caused by other persons using their account with the student's knowledge. The school reserves the right to limit access of devices to the intranet, internet, email or other network facilities to ensure the security of the network and to provide a safe environment for all. The misuse of devices may result in disciplinary action which is not limited to the withdrawal of access to school services.
