Practice QCS Test – all Year 12 OP and Rank score students

During the Exam Block time, Year 12 OP and rank score students will be sitting a full QCS Practice Test on Monday 22 June and Tuesday 23 June. All sessions on both days will be held in the Hall and are listed on the Block Exam schedule. Attendance is compulsory for students sitting the QCS test in September and rolls will be taken at all sessions. Absent students will require a medical certificate. If there are other serious extenuating circumstances, the Principal needs to be phoned by a parent on the morning of the test.

This simulation test is extremely important in preparing students for the QCS test in September and will also provide us with data showing strengths and weaknesses of the current cohort, so shortfalls can be addressed in our preparation program. It is therefore vitally important that students are present and focused to do their best.

All students must bring the correct equipment. This is important because failure to have the correct equipment in the QCS test can result in students’ inability to answer certain questions and this disadvantages the whole cohort. QCS is a team effort and everyone is required to fulfil their responsibilities to each other by being properly prepared.

Students should have three clear plastic bags with equipment for each type of test i.e. one for Writing Task, one for Multiple Choice and one for Short Response. An equipment list appears in the student’s QCS Success workbook. We remind students that, under the prescriptive rules of QCS, only equipment for the particular test they are undertaking is permitted in the QCS room. Bringing in any other equipment can be deemed as cheating and results in disqualification.
