

CYO Laptop Daily Routine

Arrive at school with a fully charged laptop

You can't charge your laptop at school. Make sure you are ready for a full day.
Think about ways to minimise battery usage.

Restart your laptop

A restart solves a multitude of problems.
Restarting at school ensures a better connection to school systems,
including connecting to printers.

Check your Wi-Fi

For best performance CYO laptops need to be connected to **iDET**

Report all problems to IT Support

CYODs are fully supported. If you have issues, take your laptop to IT Support in the Library.
Always **BACK UP** your data. Your laptop may need to be re-imaged to be repaired.
Remember, you have heaps of space on **OneDrive**.

Take Care of your Laptop

Do not walk around with your laptop open. Keep the laptop in its protective case when not in use.
Don't drop or kick your bag with the laptop in it.
