ANNIVERSARY
1974 - 2024

C Block

The original C Block was established in 1976 behind B Block and consisted of four temporary rooms which were later demolished as other permanent blocks were built.

In 2015 the current C Block was built to accommodate the increase in student numbers with the move of Year 7 to high school. In 2021 remodelling on the top floor converted some classrooms to Science laboratories.
